PROJECTS

1. CareerCode | React / MERN Job Portal

[Github](#) [Live](#)

A fully responsive React-based job portal connecting job seekers and employers, with Bengali language support and responsive experiences across mobile, tablet, and desktop.

- Implemented job search and browsing by title, location, and category.
- Added job details, job application submission, and application tracking functionality.
- Tech Stack: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, Axios

2. Ugetly | Tech & Lifestyle Shopify Store

[Live](#)

A modern, responsive e-commerce store designed for smart lifestyle products, built with custom hero banners, intuitive navigation, and multi-language support.

- Customized header layout, search integration, and multi-currency/multi-language selectors to target global customers.
- Designed dynamic promotional banners, collection sections, and value-proposition trust badges.
- Ensured seamless UI/UX consistency, mobile responsiveness, and clean component structure across all core pages.
- Tech Stack: Shopify, Liquid, HTML5, CSS3/SCSS, JavaScript, Shopify Theme Customization.

3. Maison De Slay | Luxury E-Commerce Shopify Store

[Live](#)

Designed and developed a complete luxury hair and extensions Shopify store tailored to client specifications, focusing on premium branding, complex product variations, and enhanced conversion features.

- Built custom product pages with multi-option variant selectors (Lace Size, Density, Length) and dynamic pricing.
- Integrated sticky add-to-cart bars, trust badges, and recommended product layouts for better UI/UX.
- Ensured mobile-first responsive design, dynamic FAQs, and custom navigation structure.
- Tech Stack: Shopify, Liquid, HTML5, CSS3, JavaScript, Theme Customization
